BUSINESS ADVISORY SOLUTIONS

With a commitment to help businesses expand beyond siloed accounting practices, we offer a range of advisory services that follows 'Integration as a Strategy'. Forecasting, Management Accounts and Snapshots when combined together can give micro visibility into important financial decisions. Clear House offers the following advisory solutions;

BUSINESS FORECASTING

At Clear House, we want to give you the best information to move forward and beyond just historic information. That is why we use your historic data to predict your future. Through our Live Analytics & Forecasting, Scenario Modeling services, we help you become prepared for what's coming next.

BUSINESS HEALTH CHECK

Clear house conducts health checks for your business to determine how well your business is performing financially and operationally. The check also identifies the weakness for which we identify measures to turn the weaknesses in to strengths.

MANAGEMENT ACCOUNTING

To help you visualize the Micro View of your Business, we prepare Monthly or Quarterly Management Reports tailored to your requirements to help you make informed decisions. We also Benchmark your performance against the industry to project your Business Trajectory.

PERFORMANCE REPORTING

Performance Reporting provides essential information to take more confident and effective decisions, our detailed business overview and snapshot reports will make sure that you have a complete overview about business performance across financial and non-financial areas.

MONTHLY SNAPSHOTS

Our Monthly Business Snapshot, the Snapshot lets you quickly access vital data, including revenue, bookings, and top services showing key insights for faster decisions to save time and costs.

VIRTUAL FD

We understand cost is a critical factor for a growing business and hiring a full time finance director might not always be an option or the best decision. So, we become your trusted source for financial insights every step of the way.

A JEWEL IN THE CROWN

GROWTH PORTAL AND BUSINESS BUILDER NETWORK

Fintech has been the most disrupted sector by technology and it happened just in time. We created our inhouse solution to the resource scatter problem and haphazard business networking that resulted in wasted time and efficiency.

Our Growth Portal (GP) is an industry grade solution for business owners to find resources in one place to run their business. Our Business Builder network serves as an additional complement to GP and is an online business building platform that connects one business owner to another.

CLOSING THE ACCOUNTING GAP

With a commitment to help businesses expand beyond siloed accounting practices, we offer a range of advisory services that follows 'integration as a strategy'. Forecasting, Management Accounts and Snapshots when integrated together can give business visibility into important financial decisions. Clear House offers:

1

Compliance Solutions

We cater to all basic compliance needs ranging from book keeping to tax services

2

Advanced Compliance Solutions

By preparing and monitoring your management accounts, we assess the impact of recent changes and notify you of future steps to take.

3

Advisory Services

For ambitious businesses we offer business coaching and advisory solutions to grow into bigger marketplaces

4

Accounting Technology

To create a holistic business experience, our Growth Portal helps business owners find resource solutions in one place
