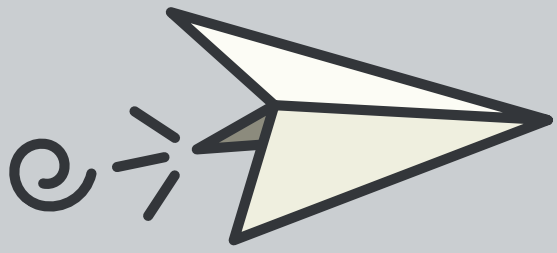
HOW TO CHOOSE THE RIGHT ACCOUNTANT?



Choosing the right accountant is likely to be a key decision any business will make since they can save your time and provide expertise to help your business grow!

Below are 5 crucial steps to help you find the right accountant

Step 1

Evaluate Partner Mindset

Your Accountant should be able to act as a business partner and support you to raise capital.

Step 2

Do Market Research

Check the level of engagement each accountant can offer, how you can contact them.

Step 3

Check Membership

If your accountants are members of ACCA or ICAEW they'll have indemnity insurance which covers losses from potential issues.

Step 4

Review Prices

Ask how your accountant will bill you, will it be annual, quarterly, monthly or hourly. This can help you calculate your spend.

Step 5

Confirm Compatibility

Find an instant messaging service that includes the option to communicate using a webcam and microphone.

Launch

Sign Agreement

If you do all the above steps you will be ready to start focusing on your business while your accountants look after your financial needs.

If you're a business start-up, then you'll no doubt be highly conscious of costs and looking to do most things yourself. A good option, in this case, is to look into bookkeeping software, with two great online options being Xero and QuickBooks
