

IMPROVE YOUR BLOCK MANAGEMENT BUSINESSES PERFORMANCE

Simple Measures Implemented in the Accounts Department can make Big Changes to your Business Performance.

CH Specializes in [Service Charge](#) Accounting Outsource Services. Speak to us to understand how we can add value to your Property Management Company.

Improve Productivity

Reducing waste processes, setting work based performance rewards & encouraging targeted deadlines with project style management can improve productivity.

Improve Client Relations

Timely information, accurate accounts and focusing on clear communication can vastly improve customer communication, satisfaction & retention.

Improve Cash-Flow

Paying for resources with high wastage, low quality and weak client relations can mean the difference between the success or failure of a business. Effective credit controls and payment terms which reflect work done and quality achieved can improve cash-flows immensely.

Improve Sales

Reduced back office waste & improved workload management means more resources can be diverted to the sales process.

Improve Quality

Employee bias and time constraints can mean poor quality accounts, errors not being flagged and huge mistakes. A financial analyst team with a systematic review process should make the quality more manageable.

Improve Overhead Spend

An effective outsource model would be the perfect solution to work on all key areas mentioned before while reducing overheads. If done properly it would mean pay only when work is done, internal quality department to assure work received, no HR management hassle, agree costs based on work allocated.
